

Greetings Partners,

Please join us on **14 April 2025, at 1:00pm-2:30pm EDT** for the National Threat Evaluation and Reporting (NTER) Program Office's Quarterly Webinar Series: **"Assessing Pre-Offense Warnings for Targeted Attacks"**

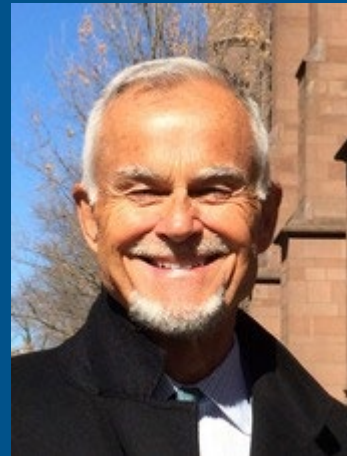

Pre-incident behaviors associated with terrorism and mass violence can be observed and identified, both on the ground and online. Would you be able to identify these behaviors before it's too late? More importantly, can you distinguish these behaviors from other potentially concerning behaviors exhibited by individuals who do not intend to conduct violence?

Dr. Reid Meloy, a world-renowned forensic psychologist with decades of experience in behavioral threat assessment, will offer invaluable insights and actionable knowledge for assessing pre-incident behaviors. Dr. Meloy will provide you with information to help you make judgements about risks related to the severity and imminency of mass attacks. This webinar is essential for those committed to protecting communities and enhancing their ability to identify pre-incident behaviors and contribute to counterterrorism and violence prevention efforts.

Don't miss this opportunity to learn from a leading authority who has shaped the field of threat assessment. Register now to secure your spot!

If you have any questions or trouble accessing the webinar, please reach out to nter.mtp@hq.dhs.gov. We look forward to your participation.
